Przeznaczenie - stworzenie szybkiego wygrodzenia w biurze, magazynie, na parkingu, itd.

Chain Post 130 cm with Base – Professional Road Traffic Safety Device

Top Quality, Durability and Visibility – The Ideal Choice for Demanding Users

The **130 cm chain post with plastic base and chain-mounting cap** is a **solid, durable and highly practical road traffic safety device**, designed for long-term use in demanding environments. The high-contrast **yellow and black** colour scheme ensures excellent visibility from a distance, while the high-quality **polyethylene** material provides resistance to damage, UV exposure and changing weather conditions.

Our company has specialized in **road traffic safety devices** for many years. We are both a **manufacturer and a direct importer**, which allows us to offer an exceptional **price-to-quality ratio**, fast delivery and immediate product availability directly from our warehouse. Our brand is well-known and valued across many European markets – we supply both wholesale and retail customers.

Product Features

- **Post colour:** yellow/black
- **Base colour:** black
- **Material:** durable polyethylene
- **Post height:** 1300 mm
- **Base:** round, fillable with water or sand

- **Weight:** approx. 1 kg (without filling)
- **Application:** equipped with a cap for secure chain mounting

Thanks to the fillable base, the post remains stable even in stronger winds, while still being lightweight, mobile and easy to reposition.

Application and Legal Compliance

This chain post is ideal as a **Road Traffic Safety Device (RTSD)** for:

- separating pedestrian and vehicle traffic routes,
- securing hazardous areas,
- temporary space management,
- organising parking zones,
- protecting restricted-access areas.

The use of such devices aligns with general regulations for road traffic organisation, including the national **Road Traffic Act** and official technical guidelines for **Road Traffic Safety Devices (RTSD)**. With its appropriate visibility and colour scheme, the product meets the standards for use in public and commercial spaces.

Examples of Use

This chain post is a **versatile and practical device**, suitable for many environments:

1. **Securing parking areas** – quickly marking restricted or out-of-service spaces.
2. **Marking communication routes** in workplaces, warehouses and logistics centres.
3. **Securing construction sites** and hazardous zones.
4. **Designating temporary access corridors** during events, maintenance or public gatherings.
5. **Separating sensitive public infrastructure** such as ramps, equipment rooms or entrances.

Thanks to its mobile construction, posts can be easily repositioned to create new configurations whenever needed.

Why Choose Our Product?

- **High-quality workmanship** and long-lasting material.
- **Excellent visibility** due to yellow-black contrast.
- **Attractive price**, offering the best value for money.
- **Fast delivery** – most products are shipped directly from our warehouse.
- **Experience and professionalism** – we have specialised in RTSD for many years.
- **A wide range of road safety equipment** available immediately.
- **Trusted across Europe** – we supply both wholesale and retail markets.

By choosing our chain post, you invest in a **reliable, durable and professional solution** that significantly improves safety in any environment.

If you need a larger quantity of posts, chains or other RTSD components – feel free to contact us! We will advise you, select the best set and ensure fast order processing.
