Description

Plastikowy trójnóg przeznaczony jest do ustawiania mobilnych zabezpieczeń w trakcie tymczasowej organizacji ruchu lub prac prowadzonych na drodze. Wykonany jest z wytrzymałego polipropylenu, dzięki czemu jest odporny na działanie niesprzyjających warunków atmosferycznych. Dzięki niewielkiej wadze oraz rozmiarom pozwala na łatwe jego magazynowanie, transport oraz przesuwanie. Na informacyjnym potykaczu można umieścić oznakowanie pionowe, co zo pozwala na informowanie kierowców lub pieszych uczestników ruchu o możliwych utrudnieniach lub trasie.

Cechy:

- Trójnóg wykonany z polipropylenu.
- Solidny i stabilny.
- Do umieszczania znaków w kształcie trójkąta.
- Przeznaczony do znaków małych - 750 mm.
- Spełnia wymogi BSEN13422.
- Nie zawiera lica znaku - cena ok 60 zł. Folia II generacji.

Tripod Sign Stand – Professional Base for Temporary Road Signage

Heavy-duty polyethylene tripod for road traffic signage
The 75 cm black tripod sign stand is a durable and reliable base designed specifically for mounting temporary road signs. Made from high-quality polyethylene, it offers excellent resistance to impact, weather conditions, UV radiation and long-term use. Despite its lightweight design, the tripod provides exceptional stability, ensuring that road signs remain securely positioned even in challenging environments. It is an essential tool for roadworks, detours, temporary traffic management and maintenance operations.

Fully compliant with temporary traffic signage regulations
The tripod is intended exclusively for mounting road signs in accordance with regulations governing temporary traffic organisation and roadwork signage. It enables fast, safe and legally compliant deployment of warning signs, prohibition signs, mandatory signs and informational signs. It supports the correct marking of work zones, lane closures, narrowed sections, temporary obstacles and hazardous areas, ensuring maximum road safety for drivers and pedestrians.

Trusted manufacturer and direct importer of road safety equipment
Our company has been a specialist in road safety devices for many years. As both a manufacturer and direct importer, we ensure top quality, competitive pricing and excellent product availability. We are recognised and trusted across many European markets. Most products are shipped directly from our warehouse, providing fast delivery for both retail and wholesale clients. Our product range is one of the largest in the traffic safety industry.

Additional applications (within road sign usage)

- Lane closure signage

- Temporary detour signs
- Maintenance and service zone marking
- Hazard warning signage
- Short-term roadwork notifications

This tripod stand is a highly stable, durable and cost-effective solution – essential for any company working with temporary road signage.
