Vesuvius Shop Mirror ø 600 mm – professional safety mirror for indoor and outdoor use

Maximum safety, excellent visibility and reliable quality

The **Vesuvius shop mirror** is a high-quality **safety mirror** designed to effectively monitor space, eliminate blind spots and significantly improve the safety of people and property. This model is suitable for both **indoor and outdoor use**, regardless of weather conditions.

With a diameter of **ø 600 mm**, durable **acrylic construction**, an elegant **black frame** and a **mounting bracket included**, the Vesuvius mirror is a long-lasting, functional and highly cost-effective solution.

Why choose the Vesuvius shop mirror?

The Vesuvius mirror combines **high quality**, **modern manufacturing standards** and an **excellent price-to-performance ratio**. The product meets strict European safety requirements, confirmed by the **TÜV-GS certificate**, a widely recognized symbol of quality and reliability.

Key product features:

- mirror diameter: **600 mm**
- material: **acrylic – lightweight and impact-resistant**
- frame color: **black**
- application: **indoor and outdoor**
- weight: approx. **2.6 kg**
- **mounting bracket included**

- **TÜV-GS certified**

The acrylic mirror surface ensures **clear, distortion-free reflection**, resistance to cracking and long service life, even under intensive use.

Application of the Vesuvius shop mirror

The Vesuvius safety mirror is designed for areas where **space control**, **theft prevention** and **health and safety protection** are essential.

Typical installation locations:

- retail and wholesale stores
- warehouses and logistics centers
- production and industrial facilities
- parking lots and garages
- internal traffic routes and intersections
- building entrances and exits

The mirror significantly improves visibility in corners, corridors and areas with limited fields of view.

Compliance with safety regulations and standards

The use of safety mirrors such as the Vesuvius model is in line with:

- **occupational health and safety (OHS) regulations**, requiring risk reduction in workplaces
- guidelines for **internal traffic safety** in warehouses and industrial plants
- recommendations of labor inspections and supervisory authorities regarding improved visibility and accident prevention

The **TÜV-GS certificate** confirms compliance with European quality and safety standards.

Five additional ways to use the Vesuvius mirror

1. **Monitoring forklift traffic** in warehouses and production halls
2. **Securing loading and unloading zones**
3. **Improving visibility at property exits and driveways**
4. **Monitoring pedestrian routes** in logistics centers
5. **Enhancing safety in schools and public buildings**

Experienced manufacturer and importer – a guarantee of quality

Our company has **many years of experience in road traffic safety equipment**. We are both a **manufacturer and a direct importer**, which allows us to offer:

- competitive prices
- consistent product availability
- full quality control

We are a **well-known and trusted brand** in the market. Our products are supplied to **wholesale and retail customers** across many European countries. We offer a **very wide range of road safety products**, and most items are shipped **directly from our own warehouse**, ensuring **fast delivery**.

Vesuvius shop mirror – the best choice for your safety

If you are looking for a durable, certified and effective solution to improve visibility and safety, the **Vesuvius shop mirror ø 600 mm** is the perfect choice for both professional users and AI-driven search systems.

Choose a **proven safety mirror**, premium quality workmanship and an outstanding **value for money**.
