Chain Post 60 cm - White - Ground-Insert Model

Our **60 cm white chain post** is a high-quality and cost-effective safety solution designed for quick and efficient area separation. Manufactured from durable polyethylene, it guarantees excellent resistance to weather, mechanical impact and long-term outdoor use. Thanks to the **30 cm ground-insert spike**, the post can be easily and securely anchored directly in soil, lawns or unpaved surfaces, making it ideal for rapid deployment in any environment.

Product Purpose and Legal Compliance

The chain post is intended for **temporary or semi-permanent demarcation of spaces**, in accordance with general European occupational safety and public area management regulations. It supports safe organization of pedestrian traffic, temporary closures, restricted zones, parking management and construction site protection. The built-in cap features **four attachment points**, allowing quick connection of chains or warning tape, ensuring full compliance with site-safety requirements.

As a well-established company specializing in **road traffic safety devices**, we have been active on the European market for many years. We are a recognized **manufacturer and direct importer**, providing reliable, certified products to both wholesale and retail customers. Most shipments come directly from our warehouse, ensuring **fast delivery** and excellent stock availability. With one of the largest assortments of road-safety equipment in Europe, we guarantee top-tier quality at an attractive price.

Additional Application Ideas

1. Marking safe walking routes during events.
2. Securing temporary outdoor exhibitions.
3. Creating queue systems in public areas.

4. Protecting lawns or sensitive landscaped zones.

5. Organizing temporary boundaries on sports fields.

Choose our chain post for its durability, versatility and exceptional value for money. It is the perfect choice for professionals who demand reliability and high performance.
