Shipping time	2-3 days

Description

Słupek elastyczny prowadzący wysokości 300 mm jest najmniejszym słupkiem uchylnym w naszej ofercie. Ostrzegawcze słupki są wykonane z elastycznego PCV, co pozwala im na minimalizację uszkodzeń spowodowanych przez kolizję lub najechanie przez pojazdy. Słupki parkingowe wyposażone są w 1 odblaskowy pas, co pozwala na zwiększenie ich widoczności. Odblaskowe słupki drogowe są popularnym produktem w branży drogowej, przemysłowej oraz motoryzacyjnej. Elastyczne słupki prowadzące nadają się idealnie do zabezpieczeń na terenie parkingów, tuneli oraz magazynów.

Cechy:

- słupek odporny na najechanie i uderzenie
- po zgnieceniu wraca do pierwotnej postaci

Inne kolory - biały, czarny, żółty - dostępne na zamówienie przy ilości min. 500 szt.

FLEX Folding Post 300 mm - top quality, visibility, and road safety

Professional PVC folding post - ideal for marking and securing traffic areas

The **FLEX 300 mm folding post** in a **bright orange color** with a **durable white reflective strip** is a modern road safety device designed for maximum visibility and high resistance to damage. Made of flexible **PVC**, it offers excellent durability, elasticity, and the ability to return to its original shape even after being run over by a vehicle. Its low weight - **only 0.7 kg** - makes installation and transport easy while ensuring stability once mounted.

This product offers an **excellent price-to-quality ratio**, making it ideal for professional roadwork companies, municipal services, and individual customers.

Applications compliant with regulations - safety in all conditions

FLEX posts comply with European and national guidelines for road safety equipment. They can be used as elements of:

- traffic guidance,
- work zone separation,
- marking hazardous areas,

- indicating driving paths in low-visibility areas.

According to regulations and directives related to traffic organization (including guidelines such as **U-1**, **U-5**, **U-21** and other standards used for temporary road marking), folding posts are suitable for marking obstacles, lane narrowing, temporary traffic lanes, roadwork zones, and areas requiring increased driver attention.

Thanks to the reflective strip and bright color, the post ensures excellent visibility both during the day and at night.

Key advantages of the FLEX 300 mm folding post

- **High visibility** – bright orange color + white reflective stripe.
 - **Flexible PVC material**, resistant to impacts and weather conditions.
 - **Quick installation** and lightweight construction (0.7 kg).
 - **Returns to its original shape after bending** – ideal for urban environments and parking areas.
 - **Durability, reliability, and safety** – valued by road maintenance services.
 - **Cost-effective solution** – high quality at an attractive price.
-

Standard applications of the FLEX post

The FLEX folding post works perfectly for:

- temporary traffic management,
- securing road construction zones,
- marking communication routes in parking areas,
- separating traffic lanes,
- marking hazardous spots, curves, and obstacles.

Additional ways to use the FLEX post

1. **Creating pedestrian and bicycle zones** in high-traffic urban areas.
2. **Marking event routes**, such as marathons, cycling races, and outdoor events.
3. **Securing construction sites** and industrial areas.
4. **Separating traffic in logistics halls** – guiding forklift routes.
5. **Creating temporary protective barriers** in private or residential areas.

Why buy FLEX folding posts from us?

Our company has **many years of experience in road safety equipment**. We are both a **manufacturer and a direct importer**, which allows us to offer the highest quality products at exceptionally attractive prices.

- We offer a **very wide range of road safety products**.
- We are **well-known and respected in the European market** – selling both **wholesale and retail**.
- **Most items are shipped directly from our warehouse**, ensuring fast order processing.
- We guarantee **quick delivery** and professional customer support.

By choosing FLEX folding posts from our offer, you invest in **safety, durability, and proven solutions**, trusted by road construction companies across Europe.
