Description

Our company offers rental of road barriers for one-day events and long-term investments. Plastic road barriers are a convenient tool for determining the path of vehicles and marking places where various types of work are carried out. Traffic separators allow you to improve the organization of road traffic and, thanks to their colors, are clearly visible to drivers. Plastic U-14 barriers are a popular product in the construction, road and industrial sectors. They also work well in parking lots, storage halls and tunnels. Road barriers are made of durable polyethylene (PE) and have dimensions of 110 cm x 40 cm x 50 cm. Our company also deals with transport, unloading, setting up and subsequent removal of protective barriers. Our company has been renting road barriers for years and we have secured such events as:

Verva Street Racing - Gdynia - 2019

Ptak Motor Show - Nadarzyn - 2019

The Chancellery of the Prime Minister - Night of Museums - 2018
