Description

Warning post, 1200 x 110 mm.

The 120 cm high warning posts are made of durable polyethylene (PE) to protect places where temporary renovation works are carried out or are temporarily out of service. Our warning road bollards can be used indoors and outdoors, thanks to their high resistance to weather conditions. Thanks to the use of reflective warning foil stripes, the posts are also clearly visible from long distances. Plastic posts can be fitted with a chain or information plates. Warning posts can be equipped with a plastic or rubber base. The product is valued in the road, warehouse and construction industries. They are also perfect for various types of events and events.

Features:

Height - 1200 mm.

Diameter - 110 mm.

Weight with base: approx. 12 kg +/- 1 kg

Post made of polyethylene, 4 stripes of white reflective foil glued on.

The cap of the post made of white polyethylene has four holes for pulling the chain and in the upper part a threaded hole for attaching an information plate.

It is possible to buy round, rectangular or triangular plates and a plastic chain.

The base is made of plastic, weighted, diameter 38 cm, height 8 cm.

Base made of recycling rubber, diameter 38 cm, height 4 cm.
