Description

A road cone, 75 cm high.

Made of flexible PVC, base made of soft recycled rubber.

Color - orange, 2 white foil stripes or in the 1st generation reflective version.

Weight - 3.2 kg.

Road cone, 75 cm high, made of flexible and durable PVC on a rubber recycling base. The orange warning cone has two white stripes made of white foil or a reflective 1st generation foil. The weight of the product is 3.2 kg. The cones are stable and can be easily moved. Orange elastic rubber bollard is used in the organization of road traffic - both the track and marking parking spaces. The reflective cone is also perfectly visible at night. Our traffic cones are used in many industries, including: automotive, construction, logistics and event.
