Plastic Chain 10 mm - Black | Durable, lightweight and highly versatile

Our **10 mm black plastic chain**, made from high-quality **polyethylene**, is designed for professional use in safety marking, space separation and creating visible protective barriers. Each link measures **72 x 40 mm (outer)** and **56 x 21 mm (inner)**, while the weight of 1 meter is only **0.19 kg**, offering an excellent combination of lightness and durability.

For many years, our company has specialized in **traffic safety equipment**. We are a **manufacturer and direct importer**, known and respected across European markets. Most products are shipped **directly from our warehouse**, ensuring **fast delivery** and top customer satisfaction.

Applications

- separating spaces in warehouses and industrial facilities,
- marking safety zones,
- securing parking lots and pedestrian areas,
- construction site marking,
- safety barriers for events and public gatherings.

Additional suggested uses

1. Queue guidance in service areas.

2. Safety marking around industrial machinery.
3. Poolside and recreational area separation.
4. Decorative garden barriers.
5. Traffic flow marking and entry/exit zones.

With an **excellent price-to-quality ratio**, durability and exceptional versatility, our black 10 mm plastic chain is a perfect solution for both retail and wholesale customers.
