Description

Trójkątna tabliczka informacyjna do słupka ostrzegawczego lub pachołka.

Trójkątna tabliczka informacyjna do ostrzegawczych słupków drogowych, wykonana z polietylenu. Może być stosowana zarówno wewnątrz budynków jak i na zewnątrz. Tabliczki cechują się prostym i szybkim montażem poprzez wkręcenie w specjalny uchwyt do zamocowania na pachołku. Możliwe jest umieszczenie na tabliczce znaku lub informacji, co może pomóc w usprawnieniu kierowania ruchem.

Produkt nie ma naklejonego znaku - w razie potrzeby, prosimy o kontakt.

Triangular Cone Sign Board - Black - 750 mm - High-Quality Polyethylene Warning Sign Plate

This **triangular cone sign board** made from durable polyethylene is designed for professional temporary and warning signage. The strong construction, **1.2 kg weight**, and **750 mm side length** ensure excellent visibility, stability and long-term durability. The board allows you to attach a **warning sign face** or a **custom-designed sticker**, making it extremely versatile.

Product Applications

- road and traffic warning signs
- marking hazardous or restricted areas
- temporary traffic organization changes
- technical and maintenance area signage
- warehouse, logistics and production facilities

Additional Uses

1. Information boards at public events.

2. Indoor construction zone marking.
3. Sports and marathon route marking.
4. Outdoor advertising displays.
5. Service and maintenance zone designation.
