Description

The polypropylene information stand allows you to quickly set up additional protection on the road. The tripod provides structural stability and can be marked with signage. The tripod is a convenient solution in the form of a mobile sign that can be freely moved due to its light weight. It is also easy to store and transport. It is intended for mobile fencing, during short-term works carried out on the road or temporary traffic organization.

Features:

Tripod made of polypropylene.

Robust and stable.

For placing signs in the shape of a circle.

Designed for small signs - 600 mm.

Meets the requirements of BSEN13422.

It does not include the sign face - the price is about PLN 60. 2nd generation foil.
