Red 6 mm Plastic Chain - Durable Safety Chain for Traffic and Industrial Use

The **red 6 mm plastic chain** is a reliable and highly visible solution designed for separating, marking, and securing different types of areas in both outdoor and indoor environments. Made from **high-quality polyethylene**, this lightweight yet durable chain is resistant to weather, UV radiation, moisture, and everyday wear, making it ideal for long-term use in demanding conditions. The chain features **24 x 39 mm links** and is available in convenient **25 m packaging**, sold per meter for maximum flexibility.

Application, Purpose, and Compliance

The red safety chain meets common requirements for area marking in workplaces, public spaces, warehouses, and temporary traffic control zones. It is widely used in accordance with industrial safety recommendations and guidelines for restricting access, marking hazardous zones, and organizing pedestrian flows. Its bright red color ensures excellent visibility, helping prevent accidents and fulfilling safety standards in many sectors.

Five Additional Use Cases

1. Securing temporary no-entry zones in industrial or construction areas
2. Marking emergency routes or temporary walkways
3. Organizing event areas and crowd control zones
4. Delimiting parking spaces or loading zones
5. Marking warehouse aisles or restricted-access racks

High Quality, Fast Delivery, and Trusted Supplier

Our red 6 mm chain provides outstanding **value for money**, offering durability, functionality, and top-level performance. As a long-established **manufacturer and direct importer of road safety**

equipment, our company is known and trusted across European markets. We supply both wholesale and retail customers and maintain a **large assortment of road safety products**. Most orders ship **directly from our warehouse**, ensuring fast and efficient delivery. With decades of experience in the field of **traffic and industrial safety**, we guarantee products that meet professional expectations.
