Description

Pachołek drogowy o wysokości 50 cm.

Wykonany z elastycznego PVC, podstawa wykonana z miękkiej gumy recyklingowej.

Kolor - pomarańczowy, 2 białe odblaskowe pasy z folii PVC.

Waga 2,2 kg.

Przeznaczony do prac drogowych, remontowych, odgradzania ruchu, wyznaczania toru jazdy, wygradzania miejsc parkingowych i inne.

The 50 cm PVC/REC reflective traffic cone is a professional road safety device designed for intensive use in roadworks, construction sites and industrial areas.

Premium quality and durable construction

Made from flexible PVC, the cone is resistant to impacts, deformation and harsh weather conditions. The heavy base made of recycled rubber (2.2 kg) ensures excellent stability and prevents tipping over. The bright orange color and two white reflective PVC bands provide outstanding visibility day and night.

Intended use and legal compliance

This 50 cm traffic cone complies with regulations for temporary traffic management, roadworks marking and hazard zone separation. It is widely used for road maintenance, construction works, parking organization and traffic guidance.

Versatile applications

- lane separation
- traffic guidance
- parking space marking
- construction site safety
- hazard area protection

Additional uses:

1. Public events
2. Warehouses
3. Logistics centers
4. Fuel stations
5. Driving schools

Why choose our product

We have specialized in road safety equipment for many years. As a manufacturer and direct importer, we are a trusted and well-known supplier across Europe. We offer excellent value for money, fast delivery and direct shipment from our warehouse. Our wide product range serves both wholesale and retail customers.
