Traffic Cone 500 mm - Yellow | Professional Road Safety Device

Our **500 mm yellow traffic cone** is made from durable **soft PVC** with a **recycled rubber base**. Equipped with **two white reflective stripes**, it offers excellent visibility day and night. The product complies with legal requirements for **temporary traffic control and hazard marking**.

High quality & safety

The cone meets regulations for temporary road signage and is widely used in public roads, construction sites, and professional traffic management. Its weather-resistant structure ensures long-lasting performance.

Applications of the 500 mm traffic cone

Perfect for:

- roadworks and construction sites,
- marking hazardous zones,
- securing breakdowns or excavations,
- parking and warehouse traffic control,
- driver training.

Additional suggested uses

1. Motorsport training circuits.

2. Loading/unloading zone marking.
3. Forklift maneuvering areas.
4. Event and festival route guidance.
5. Technological area access control.

Why choose our product?

- Premium materials and excellent durability.
- Maximum visibility thanks to reflective strips.
- Great value for money.
- We are a long-standing **manufacturer and direct importer** of traffic safety devices.
- **Fast shipping** directly from our warehouse.
- Trusted across multiple European markets.
- Very wide range of road safety products.
