Net Price: PLN 447.72

Technical Specification

Attribute	Value
Dimension	990 mm
Color	Yellow/black
Weight	7 kg
Shipping time	3-7 days

Description

The post with a pull-out tape is made of powder coated steel in white-red or yellow-black colors. It has a 2.7 m long separation tape, unrolled from the head located at the top of the post. The barrier posts are very stable, also when the tape is fully pulled out. Tape cassettes and the pull-out tape itself are available in various colors, which allows customers to adjust the product to their own individual needs. The main advantage of our fence posts is the easy and intuitive assembly process, which allows you to quickly create professional security features. Thanks to the roller mounted on the base of the post, the product allows for its easy movement and transport. Posts with a separating tape are perfect for securing workplaces and carrying out renovation works.

Features

Powder coated steel post, head made of stainless steel

Tube diameter: 50 mm

Tape length: 2.7 m (+/- 5%)

Tape width: 48 mm

Cast iron base with an integrated roller that facilitates the positioning (moving) of the post

The post is equipped with a mechanism that slows down the winding of the tape

Black powder-coated cast iron base

The base with a cut-out facilitates the storage of the posts, thus saving space during storage

Height: 990 mm

Weight: 7 kg
