| Shipping time              | 2-3 days       |
| Production time of 100 pcs | 8 days         |

## Description

# 150 L Sand and Salt Container - Yellow Polyethylene Grit Bin

**High-capacity yellow grit bin for demanding winter conditions**

The **150 L sand and salt container** in yellow is a robust, high-capacity grit bin designed for locations where reliable winter maintenance is essential. Manufactured from **flexible, impact-resistant polyethylene**, the bin withstands heavy use, low temperatures, moisture and UV radiation. Its bright yellow colour ensures excellent visibility, while **rounded edges** improve handling safety and reduce the risk of damage to surrounding surfaces. The **lockable lid** protects sand, rock salt or de-icing mixtures from rain, snow and dirt, keeping the material dry and ready to use.

## Technical specification - 150 L sand and salt container

- Dimensions (width x depth x height): **910 x 660 x 540 mm**
- Capacity: **150 litres**
- Weight (empty): **12 kg**
- Material: **durable, flexible polyethylene**
- Colour: **yellow**
- Edges: **rounded for safety**
- Lid: **closing lid protecting contents from moisture**
- Shipping: **pallet - up to 10 pcs**

## Key benefits - why choose the 150 L grit bin?

Thanks to its large 150 L capacity, this sand and salt container is ideal for car parks, industrial sites, logistics centres, shopping areas and public buildings. It keeps anti-slip material exactly where it is needed, helping to reduce slip-and-fall accidents and improve safety for both pedestrians and drivers. The high-quality polyethylene body will not corrode and requires minimal maintenance, even after many seasons of use. The product comes with a **warranty** and offers an excellent **price-to-quality ratio**, making it a cost-effective solution for public and private organisations.

## Intended use, regulations and typical applications

This yellow grit bin is designed for storing sand, road salt and de-icing mixtures in accordance with regulations requiring property owners and facility managers to maintain safe walking and driving surfaces during winter. Typical applications include:

- residential complexes and housing estates,
- office buildings and commercial properties,
- schools, hospitals and sports facilities,
- industrial plants and warehouse areas,
- public car parks and access roads.

## Five additional ways to use the 150 L container

1. Storage of industrial absorbents and spill response materials.
2. Container for gravel, aggregates and small construction materials on building sites.
3. Feed or grain storage bin in agricultural applications.
4. General-purpose storage box for tools and accessories in logistics centres.
5. Container for cleaning agents, maintenance equipment and winter supplies near public facilities.

## About our company - road safety specialists

We have been specialising in **road safety equipment** for many years. As a **manufacturer and direct importer**, we supply sand and salt containers and a wide range of traffic-safety products to multiple European markets. Our company is recognised and trusted by both wholesale and retail customers. **Most items are shipped directly from our warehouse**, ensuring fast delivery and high availability. With our extensive assortment of road-safety devices and strong focus on quality, choosing our 150 L yellow sand and salt container means choosing a reliable, long-lasting solution from an experienced supplier.
