Description

Compact Sand and Salt Container 70L (Blue) - Quick Intervention, Maximum Durability

As **specialists in road traffic safety equipment**, we proudly present the most convenient model in our range: the **blue sand and salt container** with a capacity of **70 liters**. This **compact grit bin** is key to maintaining safety in smaller, critical areas where rapid response and minimal footprint are essential.

Simple construction and low delivery costs

Our **70L road container** is made from **flexible and extremely durable polyethylene (PE)**. This material guarantees full **resistance to road salt**, frost, impacts, and UV radiation. Despite its small size, this **salt storage unit** offers the same **high quality** as our largest models, while maintaining an **attractive quality-to-price ratio**.

Thanks to its **simple construction** and optimal dimensions (W 673 mm x D 565 mm x H 538 mm), this container is the only size that we **ship as parcels**, ensuring **fast delivery** and **low logistical costs**. The container features a **closable lid** protecting the contents.

Intended Use and Versatility of Application

This **polyethylene grit bin** is designed for localized and pinpoint safeguarding of slippery surfaces. It is a mandatory safety element suggested by **legal regulations** (HSE) and road managers.

Ideal for: Stairs, driveways, and ramps; Entrances to offices, shops, and buildings; Areas around ATMs and parking meters; Small private car parks.

Choose **proven quality** from a company with many years of experience in **road traffic safety devices**. We assure you that our **wholesale and retail customers** are **highly satisfied** with the reliability of this product. **Buy now** and be ready for winter!
