Description

Sign U-3 1800x600 mm I generation reflex - Guide board

Dimensions: 1800x600 mm

Length: 1800 mm

Height: 600 mm

The board is made of 1.25 mm thick galvanized steel sheet, bent twice around the circumference, powder coated, The edges of the sign are rounded with a radius of $r = 30$ mm.

Face: 1st generation reflective foil.

The guide tables are used:

in order to warn the vehicle driver about the necessity to change the direction of travel on particularly dangerous horizontal curves, the geometry of which may surprise drivers, or which have a radius smaller than the normative for a given road and a large turning angle, and at "T" intersections.
