Description

Red Traffic Cone Topper with 5 m Red-White Retractable Belt - extended, highly visible safety marking system

This **red traffic cone topper with a 5-meter red-white retractable belt** is designed for fast, effective and clearly visible area isolation. Made from durable, flexible polyethylene, it withstands daily operational stress in construction, industry, logistics and public venues. The topper fits most standard cones, offering excellent versatility.

Technical specifications

- Material: reinforced polyethylene
- Topper colour: red
- Belt colour: red-white
- Belt length: 5 m
- Belt width: 5 cm
- Automatic spring-loaded retraction
- Weight: approx. 0.5 kg
- Option to attach up to three additional belts
- Universal cone compatibility

Advantages of the 5-meter version

The extended belt length allows larger areas to be secured with fewer cones, improving efficiency. Strong red-white colouring ensures high visibility. The automatic retraction mechanism ensures quick setup and removal, ideal for high-traffic environments.

Typical applications

- construction zones
- warehouse traffic management
- industrial operations
- public events
- restricted-access areas

Additional creative uses

- temporary pedestrian guidance
- vehicle flow management
- service lane separation
- training or instructional area marking
- emergency staging points

Why choose us?

As a long-time manufacturer and direct importer of **road safety equipment**, we offer superior quality at competitive prices. We ship quickly from our warehouse and supply customers across Europe. The topper includes a warranty and is made from premium, safety-certified materials.
