Description

Road Barrier U-14/U-25 800 mm – White Plastic Safety Barrier

High-quality polyethylene road barrier for traffic safety

The **U-14/U-25 road barrier (800 mm height)** is a professional **plastic traffic barrier** made of durable **polyethylene**, designed for road safety, construction sites and industrial use.

With a **130-liter capacity**, it can be filled with **water or sand** for excellent stability. A lockable **600 mm filling opening**, carrying handle, trolley transport option and top connection system make it extremely functional.

Applications of the U-14/U-25 road barrier

- roadworks and traffic management
- construction sites
- parking areas
- public events
- industrial zones

Additional uses:

1. temporary fencing
2. warehouse safety
3. event organization
4. airport zones
5. utility works

We are a **manufacturer and direct importer of road safety equipment**, well-known and trusted across European markets. We offer **fast delivery from our own warehouse**, competitive prices and a very wide product range.
