Traffic Cone 900 mm - Professional PVC Cone with Reflective Stripes

Our **900 mm orange traffic cone**, made from durable **PVC**, features **two white reflective stripes** (1st generation film) and weighs **7.4 kg**, ensuring outstanding stability and visibility.

We are a long-established company specializing in **road safety equipment**, acting as both **manufacturer and direct importer**. Our brand is well-known across European markets. With large warehouse stocks, we ensure **fast delivery**, shipping most products directly from our warehouse.

Regulation-compliant Use

This cone meets requirements for temporary road marking and is ideal for:

- marking work zones,
- indicating obstacles,
- directing traffic flow,
- securing roadworks,
- managing traffic during events.

Additional Uses

1. Driver training zones.
2. Marking sports tracks and running routes.
3. Protecting private driveways.

4. Safety zones in industrial and warehouse facilities.

5. School and sports training activities.

The cone offers an unbeatable **quality-to-price ratio**, making it a great choice for professional and commercial applications.
