Description

CONESTAR 1000 Dusk Sensor Cone Light - Professional Safety Warning LED Lamp

The **CONESTAR 1000 dusk-activated cone light** is a modern and highly effective LED warning device designed to maximize safety in roadwork zones, construction sites and industrial environments. Mounted directly on a traffic cone, it ensures excellent visibility from long distances, both at night and during adverse weather such as fog, rain or snow. Thanks to its automatic **dusk sensor**, the lamp switches on by itself, eliminating user error and guaranteeing reliable operation.

High-Quality Construction and Compliance with Safety Standards

With dimensions **180 × 180 × 230 mm** and a weight of **0.5 kg**, the lamp is built using durable components and powerful LEDs emitting intense **orange warning light**, fully compliant with temporary traffic control and safety marking regulations. The CONESTAR 1000 model features a **certification of conformity**, ensuring adherence to applicable safety norms. Powered by a **4R25 battery (sold separately)**, the lamp provides long-lasting performance.

Applications and Five Additional Uses

Ideal for:

- roadworks and traffic management,
- improving cone visibility,
- marking diversions and narrowed lanes,
- highlighting hazards and restricted areas,
- temporary traffic organization.

Additional uses:

1. Parking lot and maneuvering zone marking
2. Warehouse and industrial area safety
3. Emergency lighting during breakdowns
4. Supporting technical and utility services
5. Signaling during night events and outdoor activities

Trusted Manufacturer, Fast Shipping and Excellent Value

Our company has been a reputable manufacturer and direct importer of **road safety equipment** for many years, supplying both retail and wholesale customers across Europe. With a large product range and **fast dispatch directly from our warehouse**, we guarantee swift delivery. The CONESTAR 1000 cone light stands out with its durability, energy efficiency and outstanding value for money.
