Technical Specification

Attribute	Value
Dimension	80 x 40 x 40 cm
Color	Grey
Material	Beton C30 / 37
Weight	300 kg
Shipping time	7-14 days

Description

BetonBlok 80×40×40 cm - versatile modular concrete block for durable construction

The BetonBlok 80×40×40 cm is a compact, durable modular concrete block made from high-quality C30/C37 structural concrete. Designed for efficiency, mobility and long-term performance, this block is ideal for industrial, agricultural, technical and storage applications. Its narrower width of 40 cm ensures easy handling, greater flexibility in tight spaces and precise structural alignment.

Technical Specifications

- Model: BetonBlok 80×40×40 cm
- Material: C30/C37 structural concrete
- Design: rectangular block with interlocking studs
- Weather resistance: excellent resistance to frost, humidity, UV rays and temperature variations
- Fire classification: **BetonBlok elements with widths of 60 and 80 cm meet the fire-resistance requirements of EN 13501-2.**

Key Benefits

The BetonBlok 80×40×40 cm offers exceptional versatility and fast installation without the need for foundations or mortar. The interlocking system ensures structural stability while allowing for quick modifications or expansions. Despite its compact dimensions, the block provides high durability, making it suitable for long-term outdoor use. The materials used are of the highest quality, and the product is covered by a full manufacturer warranty.

This model is particularly valued for applications requiring compact yet solid construction elements. Its narrow width allows precise layout planning and optimal use of available space, making it a practical choice for various professional environments.

Common Applications

- light industrial partition walls
- material bays and compact storage bins
- logistic infrastructure and technical divisions
- agricultural storage and protective structures
- temporary or permanent fencing systems

Additional Use Ideas

- ballast blocks for stabilising temporary installations
- bases for equipment and machinery
- garden walls or small landscape structures
- technical boundary markers
- support blocks for internal traffic organisation

Why Choose BetonBlok?

We have been providing BetonBlok elements to European customers for many years. As a recognised supplier and manufacturer, we ensure that all products meet strict quality standards. Our company is known for its reliability, professional service and extremely fast order fulfilment – likely the fastest on the market.

Customers praise the BetonBlok 80×40×40 cm for its strength, adaptability and exceptional value for money. It is a proven and efficient solution for professionals seeking durable modular construction components.
