Technical Specification

Attribute	Value
Dimension	40 x 40 x 80 cm
Color	Grey
Material	Beton C30 / 37
Weight	300 kg
Shipping time	7-14 days

Description

BetonBlok 40×40×80 cm - modular concrete block with 40 cm height for precise low-profile structures

The BetonBlok 40×40×80 cm belongs to a specialised series of elements designed with a **uniform height of 40 cm**. Manufactured from high-performance C30/C37 concrete, this block provides a compact, durable solution for projects requiring low structural heights, precise layout and rapid installation. The modular interlocking system ensures stability and enables quick configuration without the need for mortar or foundations.

Technical Specifications

- Model: BetonBlok 40×40×80 cm
- Dimensions: 80 cm length, 40 cm depth, **40 cm height**
- Material: C30/C37 structural concrete
- Weather resistance: frost, humidity, UV and temperature variations
- Fire rating: **BetonBlok elements with widths of 60 and 80 cm meet EN 13501-2 fire-resistance standards.**

Main Advantages

This block is ideal for low-profile structural solutions where precision and easy reconfiguration are essential. Its compact size allows quick placement, simple transport and flexible adaptation in industrial, agricultural or construction environments. The high material quality ensures excellent durability and long-term resistance even in demanding outdoor conditions.

Common Applications

- low-height partition walls
- small storage bays and material bins
- construction site layout and organisation
- technical separation in industrial spaces
- landscape or garden structures

Additional Use Ideas

- ballast blocks for temporary setups
- bases for lightweight gates or fencing
- supports for equipment and tools

- perimeter delimitation in work areas
- low retaining or decorative walls

Why BetonBlok?

We have been supplying BetonBlok solutions across Europe for many years, working only with top-tier manufacturers. Our products are valued for reliability, long service life and some of the fastest delivery times in the market.

The BetonBlok 40×40×80 cm offers a perfect balance between compact size, durability and construction flexibility, making it an excellent choice for low-height modular structures.
